

RESOURCES DESIGNED WITH YOU IN MIND

Skyrizi[®] COMPLETE

IT'S ALL ABOUT YOU

Skyrizi[®] COMPLETE

Now that you've been prescribed SKYRIZI, Skyrizi Complete is here to support you. It's an experience that offers personalized, 1-to-1 assistance to address your unique needs. [Skyrizi Complete helps you start and stay on track with your prescribed treatment plan—all at no additional cost to you.](#)

ONE-TO-ONE DEDICATED SUPPORT

When you enroll in Skyrizi Complete, your **Skyrizi Complete Nurse Ambassador*** will call to help you get started with SKYRIZI. They understand your disease and are there to listen to what matters to you.

Since your Nurse Ambassador will be the same person every time, **they get to know your needs** so they know just how to help. They can:

- Help you better **understand your treatment**
- **Navigate your insurance coverage** and the prescription process
- Identify potential **ways to save** on SKYRIZI
- **Prepare** for your injections

*Nurse Ambassadors are provided by AbbVie and do not work under the direction of your health care professional (HCP) or give medical advice. They are trained to direct patients to their HCP for treatment-related advice, including further referrals.

I'M HERE TO **LISTEN** TO PATIENTS
AND **GIVE THEM THE SUPPORT**
AND **RESOURCES THEY NEED.**

—Tina K, Nurse Ambassador

USES AND IMPORTANT SAFETY INFORMATION ABOUT SKYRIZI[®] (risankizumab-rzaa)¹

SKYRIZI Uses¹

SKYRIZI is a prescription medicine used to treat adults:

- with moderate to severe plaque psoriasis who may benefit from taking injections or pills (systemic therapy) or treatment using ultraviolet or UV light (phototherapy).
- with active psoriatic arthritis (PsA).

Important Safety Information¹

What is the most important information I should know about SKYRIZI[®] (risankizumab-rzaa)?

SKYRIZI is a prescription medicine that may cause serious side effects, including:

Serious allergic reactions:

- Stop using SKYRIZI and get emergency medical help right away if you get any of the following symptoms of a serious allergic reaction:
 - fainting, dizziness, feeling lightheaded (low blood pressure)
 - trouble breathing or throat tightness
 - chest tightness
 - swelling of your face, eyelids, lips, mouth, tongue, or throat
 - skin rash, hives
 - itching

Infections:

SKYRIZI may lower the ability of your immune system to fight infections and may increase your risk of infections. Your healthcare provider should check you for infections and tuberculosis (TB) before starting treatment with SKYRIZI and may treat you for TB before you begin treatment with SKYRIZI if you have a history of TB or have active TB. Your healthcare provider should watch you closely for signs and symptoms of TB during and after treatment with SKYRIZI.

- Tell your healthcare provider right away if you have an infection or have symptoms of an infection, including:
 - fever, sweats, or chills
 - muscle aches
 - weight loss
 - cough
 - warm, red, or painful skin or sores on your body different from your psoriasis
 - diarrhea or stomach pain
 - shortness of breath
 - blood in your mucus (phlegm)
 - burning when you urinate or urinating more often than normal

Do not use SKYRIZI if you are allergic to risankizumab-rzaa or any of the ingredients in SKYRIZI. See the Medication Guide or Consumer Brief Summary for a complete list of ingredients.

Before using SKYRIZI, tell your healthcare provider about all of your medical conditions, including if you:

- have any of the conditions or symptoms listed in the section “What is the most important information I should know about SKYRIZI?”
- have an infection that does not go away or that keeps coming back.
- have TB or have been in close contact with someone with TB.
- have recently received or are scheduled to receive an immunization (vaccine). Medications that interact with the immune system may increase your risk of getting an infection after receiving live vaccines. You should avoid receiving live vaccines right before, during, or right after treatment with SKYRIZI. Tell your healthcare provider that you are taking SKYRIZI before receiving a vaccine.
- are pregnant or plan to become pregnant. It is not known if SKYRIZI can harm your unborn baby.
- are breastfeeding or plan to breastfeed. It is not known if SKYRIZI passes into your breast milk.
- become pregnant while taking SKYRIZI. You are encouraged to enroll in the Pregnancy Registry, which is used to collect information about the health of you and your baby. Talk to your healthcare provider or call 1-877-302-2161 to enroll in this registry.

Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

What are the possible side effects of SKYRIZI?

SKYRIZI may cause serious side effects. See “What is the most important information I should know about SKYRIZI?”

The most common side effects of SKYRIZI in people treated for plaque psoriasis and psoriatic arthritis include: upper respiratory infections, headache, feeling tired, injection site reactions, and fungal skin infections.

These are not all the possible side effects of SKYRIZI. Call your doctor for medical advice about side effects.

Use SKYRIZI exactly as your healthcare provider tells you to use it.

SKYRIZI is available in a 150 mg/mL prefilled syringe and pen.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch or call 1-800-FDA-1088.

If you are having difficulty paying for your medicine, AbbVie may be able to help. Visit [AbbVie.com/myAbbVieAssist](https://www.abbvie.com/myAbbVieAssist) to learn more.
